**Welcome to GC Express!**

...bringing simplicity and consistency to advisory and other small group guidance settings.

GC Express lessons may be presented in the classroom using the lesson packets provided or in a computer lab with the lesson plans and the online workbooks. Each packet includes student forms which must be reproduced for classroom use. Use the online forms file for computer based lessons. Student computer access should be through your school's student/Great Choices log-in.

Each lesson is designed to be approximately 20 minutes in length, but may be extended or shortened by student's custom. While lessons are prescriptive, they are sufficiently flexible to meet your unique school and classroom needs.

Select the file that meets your needs:

- Overview - This document presents a unit description, enduring understanding, essential questions, and related IGC standards.
- Lesson packets - Each packet includes a lesson plan, the related workbook screenshot, and reproducible student forms.
- Full set of lesson plans - This file contains all lesson plan packets for the entire workbook.
- GP - This represents the Blueprint for Your Future series.
- IG - This represents the Inside Guide series.

Use the table below to access your lesson planning and presentation materials for each workbook in the Great Choices series.

IG: Courses	IG: Activities	IG: Study Skills	IG: Goals
